

## History

Reverend Walter Thorpe and his wife Lavinia founded Camp Thorpe in 1927. Their vision arose from observing that the summer camp experience was only available to healthy children from well-to-do families. This sparked the idea to create a summer camp for underprivileged children with physical disabilities. Camp Thorpe has evolved through the years, but our commitment to those who may not otherwise have access to Vermont's beauty in the summer has remained our guiding star..
